

# 2018 Public Works Construction Project Summary

## Reconstruction of 7<sup>th</sup> Avenue NW and 6<sup>th</sup> Avenue NW (J7319)

Anticipated to start in June, 2018 and be completed in November 2019

Complete street reconstruction that includes water main, storm sewers, and sanitary sewer replacements. The project will also resurface the street and replace defective sidewalk panels in the project area.

### Project Benefits

This project will:

- Replace deteriorated pavements
- Replace defective sidewalks
- Alleviate localized street flooding from stormwater
- Create additional sanitary sewer capacity for downtown Rochester

### Construction Impacts

Impacts to vehicle traffic:

- Construction will occur from north to south along the project. Travel lanes will be impacted depending on their proximity to the active construction area.
- Anticipated travel impacts in 2018 are along 6<sup>th</sup> Avenue NW, 4<sup>th</sup> Street NW, and possibly 3<sup>rd</sup> Street NW and 8<sup>th</sup> Avenue NW.

Impacts to pedestrians:

- Sidewalks within active construction zones will be closed.

### Project Cost and Funding

Estimated construction costs are \$5.9M: 28% from general tax levy, 18% from State Aid, 18% from the Storm Water Utility Fund, 11% from the Sanitary Sewer Utility Fund, 12% from water utility share, and 13% from assessments.
